- TOP CITIES WHERE YOU GET THE MOST FOR YOUR MONEY -

As a general rule, most all western cities (excluding those in California) have an average cost of living on the lower end, and Boise is no exception. The capital city and the largest city of the state of Idaho, Boise is consistently ranked as having one of the lowest costs of living of any US city. With beautiful surrounding scenery and a nice "college town" environment, it is a great residence to consider if you are looking to settle down in a place that will make your dollar stretch further.
